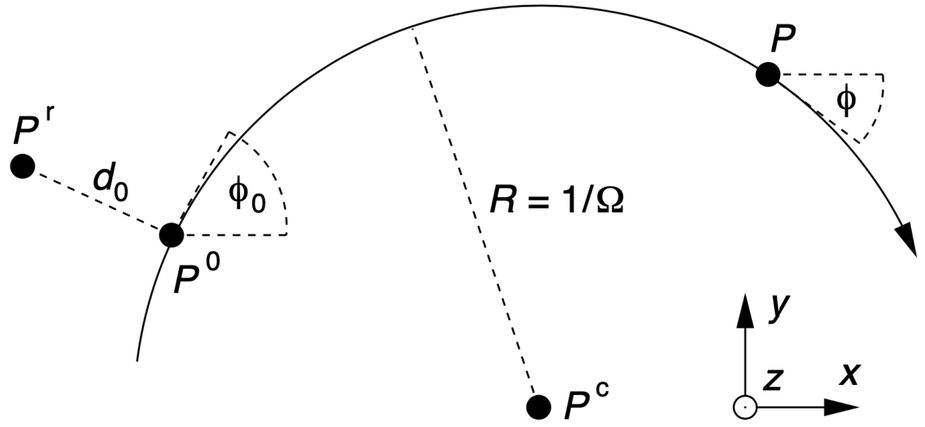

Figure 1: The projection of a helix segment in the xy plane is a part of an arc with centre $\boldsymbol{P}^{\mathrm{c}}$ and radius R. The direction of the particle is shown with the arrow at the arc. All track parameters are given relative to the reference point $\boldsymbol{P}^{\mathrm{r}}$.

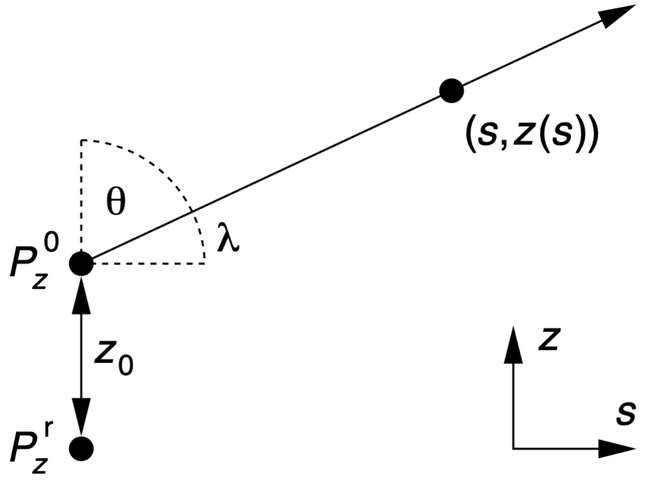

Figure 2: The projection of a helix in the sz plane is a straight line (see Eq. 10). The variable s at a point $\boldsymbol{P}$ is the arc length in the xy plane from $\boldsymbol{P}^0$ to $\boldsymbol{P}$. This also implies that $s = 0$, if $z = z_0$.
